Subject: Approaching hair on fire: L-18-0279

Hi Ex. 6 Personal Privacy (PP)

I submitted a SIF for L-18-0279 in November. The engineering report was updated in December. I just emailed Ex. 6 Personal Privacy (PP) to ask for an estimate of when the eco, exposure and health reports will be done. The technical contact, Kelly Mayo-Bean, is getting frustrated with the delay and may want to speak with one of you.

Below is the email that I received from [REDACTED] today:

Thanks Ex. 6 Personal Privacy (PP)

We have given EPA 3 months to complete the re-review, which I believe has been sufficient time. Also, given the age of this case I would think CCD would want to clear it from the list. I don't want to put you on the spot as the PM, but if you are not aware of the priority of this case and when we might have some results, then I would like to elevate this to upper management.

Before I do that, is there anything further you can do or schedule that you can share with me as to when this case will be presented for a determination?
